WRP Packet Checklist

WASTE REDUCTION PLAN PACKET

The information provided in this document is general and intended for general guidance. Each project is unique and additional requirements may be required and/or enforced as deemed appropriate, refer to the applicable code for specific requirements.

The Town of Hillsborough passed a Recycling Resolution requiring Waste Reduction Plans for all construction and demolition projects. Please read the attached documentation carefully and use the checklist below to ensure compliance.

CHECKLIST

- ☐ **Complete and submit the Waste Reduction Plan form** (labeled "**REQUIRED PRIOR TO PERMIT**") before pulling your permit.
- ☐ **After obtaining permit, arrange for the thorough deconstruction and salvage of reusable items** in advance of demolition, if applicable, and have your salvage service provider write a letter outlining the types and quantities of materials salvaged. If you are not familiar with deconstruction and salvage service providers, see the attached list of companies that work locally.
- ☐ **If you decide to use a debris box, use a service provider that is franchised to haul materials generated in Hillsborough** (see attached list).
- ☐ **Separate the debris material(s) you will be generating the most of** (e.g., scrap wood, concrete) in order to facilitate recycling, and haul to the recycling facilities on your approved Waste Reduction Plan.
- ☐ **Take mixed debris to the approved recycling facility on your Waste Reduction Plan**.
- ☐ **Complete the Diversion Summary Sheet (labeled "REQUIRED PRIOR TO FINAL INSPECTION") and attach weight tickets** to document compliance when your job is complete, BUT BEFORE YOUR FINAL INSPECTION. Final inspections will not be completed until all recycling documentation is submitted.

Please call the Town's Recycling Specialist at (650) 375-7411 with any of your reuse and recycling questions.

C&D #2
Revised 03/02/11
C&D Summary

CONSTRUCTION & DEMOLITION WASTE REDUCTION

The information provided in this document is general and intended for general guidance. Each project is unique and additional requirements may be required and/or enforced as deemed appropriate, refer to the applicable code for specific requirements.

Hillsborough is required by State Law to divert 50% of its waste from landfill (or not exceed an equivalent per capita disposal target). To meet this goal, the Town requires applicants for demolition and building permits to submit a Waste Reduction Plan ("Plan") for review and approval. Where a contractor will demolish a home and construct a new one, a separate Plan is required for each project. The Plan will demonstrate how the contractor will maximize the reuse and/or recycling of materials generated during demolition, new construction, roofing, landscape and other construction projects.

DECONSTRUCTION AND SALVAGE

Where a structure is to be partially or wholly demolished, *deconstruction and salvaging of materials should take place*. Basic salvage of easily removed, valuable appliances and fixtures almost always happens before a demolition. However, deconstruction companies go much farther, removing lumber, flooring, brick and many other materials for reuse before the house is demolished. These companies may work with your demolition contractor or provide full deconstruction and demolition services. In some cases, the homeowner may be able to write-off the fair market value of the salvaged items. Please consult the list of service providers attached.

Hillsborough recognizes that the more time a deconstruction company is given, the more they can salvage. Upon obtaining written approval from the Town, applicants may perform non-structural deconstruction and salvage for reuse before a demolition permit is issued. Structural deconstruction may only begin upon issuance of a demolition permit. The contractor is responsible for providing sufficient time for deconstruction organizations to maximize their salvage efforts. Work hours for deconstruction and salvaging are the same as for other construction activities.

SOURCE SEPARATION AND MIXED DEBRIS

Separating into clean loads those materials that cannot be salvaged will facilitate their recycling, and is strongly encouraged. For example, on-site separation of scrap wood during construction of a house should be undertaken where feasible. Recycling facilities often accept source-separated materials at a lower fee than mixed debris. Be sure to label your containers and educate your subcontractors to ensure clean, source-separated loads. General contractors should consider inserting recycling language into their sub-contracts that reflects the Town's C&D recycling requirements.

If you intend to haul mixed debris (e.g., Acceptable Loads: metals, wood, gypsum wallboard, tiles, etc.), it must be hauled to the facility on your approved Waste Reduction Plan that can process and recycle mixed debris. Materials that have been source separated at the job site and contain very little or no contamination do not necessarily have to be hauled to a mixed debris recycling facility, but must be hauled to the facility (or facilities) indicated on your approved Waste Reduction Plan. Please refer to the attached list of approved mixed debris recycling facilities in developing your Plan.

DEBRIS BOXES

If you will require debris box service, you may only use a debris box company permitted by the Town. These companies have agreements with the Town to recycle materials hauled from within Hillsborough Town limits. Please refer to the attached list of permitted debris box companies.

DOCUMENTATION

Demolition Projects. The Building Inspector may verify the removal of salvaged materials prior to demolition. Once demolition is complete, the contractor will submit the attached Diversion Summary Sheet with: 1) a list of items salvaged for reuse, and 2) all facility weight tickets showing the date, project address, quantity, type and disposition of the remaining materials that were hauled from the job site. The Building Inspector will verify that the recycling goals of the Plan were documented and met *before a construction permit will be issued.*

Construction Projects. A Waste Reduction Plan must be submitted and approved *before a construction permit will be issued*. Upon completion of the project, the contractor will complete and submit the attached Diversion Summary Sheet with weight tickets showing the date, project address, quantity, type and disposition of all materials that were hauled from the job site. Review and approval of all waste reduction documentation is required before scheduling a final inspection.

QUESTIONS

Please contact the Town's Recycling Specialist at (650) 375-7411.

Waste Reduction Plan

WASTE REDUCTION PLAN-REQUIRED PRIOR TO PERMIT

The information provided in this document is general and intended for general guidance. Each project is unique and additional requirements may be required and/or enforced as deemed appropriate, refer to the applicable code for specific requirements.

This Plan must be completed and submitted for review and approval prior to permit issuance.

☐ Demolition (_____SF) ☐ Remodel ☐ Addition ☐ New Construction (_____SF) ☐ Re-Roof ☐ Landscape

Project Description: _____

Project Address: _____

Contractor: _____Phone:_____

Permit #s: _____/_____/_____

Projected Start Date:_____ Projected End Date: :_____

List all recycling facilities, landfills, on-site reuse, etc. that will receive debris materials.

Code	Facility Name
A	
B	
C	
D	
E	

Estimate quantities of material types and indicate how they will be handled.

Material Types To Be Generated	Total Quantity		Facility **(use code from above)**	To Be Recycled? **(Yes/No)**
	Demolition Debris	Construction Debris		
Mixed Materials				
Mixed Debris (e.g., wood, metal & drywall combined in one debris box)	cu yd	cu yd		
Mixed Inerts (e.g., mixed dirt and concrete)	cu yd	cu yd		
Source Separated Materials				
Asphalt	cu yd	cu yd		
Concrete	cu yd	cu yd		
Brick	cu yd	cu yd		
Clean Wood (unpainted, untreated)	cu yd	cu yd		
Green Waste (trees, brush, yard waste)	cu yd	cu yd		
Drywall / Sheetrock	cu yd	cu yd		
Metals	cu yd	cu yd		
Carpet/Padding	cu yd	cu yd		

Material Types To Be Generated (Continued)	Total Quantity		Facility (use code from above)	To Be Recycled? (Yes/No)
	Demolition Debris	Construction Debris		
Salvage for Reuse	cu yd	cu yd		
Trash	cu yd	cu yd		
Other:	cu yd	cu yd		
TOTAL	cu yd	cu yd		

***Deconstruction and salvage of reusable items will be performed*.** ☐ **Yes** ☐ **No**

If "Yes," name your service provider(s), the items they will remove and the amount of time provided to them. Attach a separate salvage list, if necessary. If "No," list the names of the deconstruction/salvage contractors that you contacted regarding your project.

***Separation of select debris materials will be performed on job site*.** ☐ **Yes** ☐ **No**

If "Yes," describe which materials will be kept separate for recycling and how they will be kept separate. If "No," please explain why separation will not take place.

***I will be using a debris box*.** ☐ **Yes** ☐ **No**

If "Yes," please indicate the approved debris box service (See attached list of permitted debris box companies).

_____

I understand that Hillsborough places a high priority on deconstruction, salvage, source separation, and recycling of construction and demolition materials. I will abide by this Waste Reduction Plan and divert materials from the landfill to the maximum extent possible. Additionally, I understand that if I use a debris box, I may only use a company permitted to haul materials generated within Hillsborough city limits.

_____ _____

Contractor's Signature Date

_____

Name (Print)

Mid-Point Handout

PROJECT MID-POINT HANDOUT

The information provided in this document is general and intended for general guidance. Each project is unique and additional requirements may be required and/or enforced as deemed appropriate, refer to the applicable code for specific requirements.

Before a Hillsborough Building Department Final Inspection is granted, contractors must demonstrate compliance with the Town's Construction & Demolition Debris (C&D) Recycling Ordinance #628. Contractors must:

1. Provide all original receipts (e.g., weight tickets) from the facilities to which project debris was hauled. If debris boxes were used, contact the debris box company to have copies of all weight tickets sent to the contractor or to the Town's Recycling Specialist. Debris box companies may fax or email receipts to the Recycling Specialist at 650-375-7415 or jlucero@hillsborough.net.

   If applicable, provide salvage documentation in the form of a letter and materials list from the service provider(s). Photos may also be provided as supporting evidence that salvaging was performed.
2. Complete a *Diversion Summary Sheet*. If multiple projects are involved, recycling and disposal receipts must be associated with the correct Waste Reduction Plan and permit.
3. Organize and attach all receipts in chronological order.
4. Submit all documents to the Recycling Specialist at the Town of Hillsborough Building Department, 1600 Floribunda Ave., Hillsborough, CA 94010. Be sure to keep copies for your records.
5. Verify compliance with the Recycling Specialist. Once verified, bring your *Yellow Field Card* to the Building Department for the Recycling Specialist to sign.
6. Schedule a Final Inspection by calling 650-375-7411.

Contractors must account for all construction and demolition debris that leaves their job sites (whether salvaged, recycled or disposed). This includes all debris hauled by subcontractors.

The Building Department's final inspection process will not be completed until all documentation has been submitted and compliance with the C&D recycling requirements has been verified by the Town's Recycling Specialist.

If you have any questions about the C&D recycling requirements, please contact the Town's Recycling Specialist at (650) 375-7436.

TOWN OF HILLSBOROUGH RECYCLING RESOURCES

DECONSTRUCTION AND SALVAGE COMPANIES

Salvaging materials for reuse in their existing state is the highest and best form of recycling. The following organizations engage in salvage efforts as operators of deconstruction (as opposed to demolition) companies, salvage yards or both.

SALVAGED REUSABLE BUILDING MATERIALS	
Whole House Building Supply 1000 S. Amphlett Blvd., San Mateo, 94402 www.driftwoodsalvage.com (650) 558-1400	Performs deconstruction and conducts house salvage sales. Also picks up salvaged materials on a case-by-case basis and receives drop-off donations. Call first for information on accepted materials. Offers charitable deduction receipt for donated materials.
The Reuse People 9235 San Leandro Blvd., Oakland, 94603 www.thereusepeople.org (510) 383-1983	Performs deconstruction and conducts house salvage sales. Also picks up salvaged materials on a case-by-case basis and receives drop-off donations. Call first for information on accepted materials. Offers charitable deduction receipt for donated materials.
This and That 1701 Rumrill Blvd., San Pablo, 94806 (510) 232-1273	Performs deconstruction of easily extractable materials. Also picks up salvaged materials on a case-by-case basis and receives drop-offs. Call first for information on accepted materials.
Building Resources 701 Amador St., San Francisco, 94124 www.buildingresources.org (415) 285-7814	Picks up larger loads of salvaged materials on a case-by-case basis and receives drop-off donations. Call first for information on accepted materials. Offers charitable deduction receipt for donated materials.
The Reusable Lumber Company 800 La Honda Road, Woodside, 94062 www.reusablelumber.com (650) 529-9122	Performs deconstruction with a focus on salvaging lumber.
C&K Salvage and Allen Demolition 718 Douglas Ave. (Edes Ave.), Oakland, 94603 (510) 569-2070	Performs deconstruction. Also picks up larger loads of salvaged materials on a case-by-case basis and receives drop-offs. Primarily interested in reusable lumber. Call first for information on accepted materials.
Sequoia Salvage & Demolition 157 Warwick St., Redwood City, 94062 www.placemakersinc.com (650) 303-7530	Performs deconstruction for the purposes of reuse and resale. Also purchases salvaged building materials from deconstruction contractors, salvaged material dealers, and private parties. Does not offer pick-ups or drop-offs.
Scott's Demolition / A Better Earth P.O Box 6309, San Mateo, 94403 www.ABetterEarthSite.net (650) 593-7799	Performs partial or whole house deconstruction and /or salvaging. Offers charitable deduction receipts from certified appraiser.
Ohmega Salvage 2400 San Pablo Ave., Berkeley, 94702 www.ohmegasalvage.com (510) 204-0767	Performs limited deconstruction with a focus on higher end and older interior architectural elements and fixtures. Purchases picked up and dropped-off salvaged materials on a case-by-case basis. Call first for information on accepted materials.
Urban Ore 900 Murray St., Berkeley, 94710 www.urbanore.com (510) 841-7283	Picks up extracted items through its Outside Trader department. Purchases/receives dropped-off salvaged items on a case-by-case basis. Call first for information on accepted materials.
Caldwell's 195 Bayshore Blvd., San Francisco, 94124 www.caldwell-bldg-salvage.com (415) 550-6777	Purchases/receives dropped-off salvaged items on a case-by-case basis. Call first for information on accepted materials.
Condon & Sons 117 East 25th Ave., San Mateo, 94403 (650) 349-3212	Receives typically locally undesirable materials such as single-pane aluminum windows and sliding glass doors for overseas shipment to countries in need of inexpensive building materials. Call first for information on accepted materials.
Recycled Glassworks 238 Bonview St., San Francisco, 94110 www.recycledglassworks.com (415) 641-5610	Reuses ¼" or thicker, non-tempered plate glass (such as that from older aluminum sliding glass doors) in decorative glass products. Pieces must be 10" square or larger. Will pick-up or receive drop-offs. Call for more information.
S.C.R.A.P. 801 Toland St., San Francisco, 94124 www.scrap-sf.org (415) 647-1746	Accepts donations of materials such as clean wood, tile, and carpet scraps that can be re-used as art supplies by schools and other needy art and educational groups. Call for pick-up information and a complete list of accepted materials.

Berkeley Architectural Salvage 1167 65th St., Berkeley, 94608 (510) 655-2270	Receives dropped-off pre-1940 salvaged items on a limited, case-by-case basis. Call first for information on accepted materials.
ReStore (East Bay Habitat for Humanity) 9235 San Leandro St., Oakland, 94603 www.habitateb.org/restore (510) 777-1447	Accepts donated building materials to use in Habitat East Bay developments, or re-sells them to the public at discounted prices. All sales go into supporting Habitat East Bay's low-income building program. Donated items must be intact and in good condition. Call or visit the website for more information.
Omega Too 2204 San Pablo Ave, Berkeley, 94702 www.omegatoo.com (510) 843-3636	Receives dropped-off pre-1930 salvaged items, particularly light fixtures, tubs, sinks, toilets, and wrought iron gate and window hardware. Also recycle fluorescent bulbs. Call first for more information on accepted materials.
The Sink Factory 2140 San Pablo Ave, Berkeley, 94702 www.sinkfactory.com (510) 540-8193	Accepts donated salvaged basins, bathtubs, sinks, toilets, and faucets.
Craigslist www.craigslist.org	A web site that offers the ability to post (and search for) items for sale to a local community of prospective buyers.
Freecycle www.freecycle.org	An email list for posting items to be given away for free. It provides the ability to subscribe to local postings.
CalMAX www.ciwmb.ca.gov/calmax/BayMax/default.asp	A web site that offers the ability to post (and search for) building materials for sale to a local community of prospective buyers.

SOURCE SEPARATED MATERIAL RECYCLERS

The following are facilities that accept source separated materials. Benefits of separating materials for recycling typically include:

- **lower cost (tipping fee) of recycling**
- **higher recycling rate for your demolition or construction project**
- **greater number of recycling facilities**
- **closer proximity of recycling facilities**

APPLIANCES	
Ecumenical Hunger Program 2411 Pulgas Ave., East Palo Alto, 94303 www.ehpcares.org (650) 323-7781	Accepts donations of working appliances that are less than 10 years old. Call for more information and to arrange for pick-up or drop-off.
Human Services Agency 350 90th Street, Daly City, 94015 (650) 301-8720	Accepts donations of working appliances and distributes to individuals in its social service program. Call for more information and to arrange for pick up or drop-off.
Project 90 15 Ninth Ave., San Mateo, 94401 www.projectninety.org (650) 579-7881	Accepts donations of working appliances. Call for more information and to arrange for pick-up or drop-off.
Rebuilding Together 841 Kaynyne St, Redwood City, 94063 www.rebuildingtogetherpeninsula.org (650) 366-6597	Accepts donations of washers and dryers less 5 years old. Also accepts most dishwashers, refrigerators, ovens and ranges (non-built-in) including hoods. Will pick up or accept drop-offs after on-site verification of reusability. Please call first to set up an appointment to evaluate prospective donations.
St. Vincent de Paul Society Locations in Daly City, South San Francisco, San Mateo, and Redwood City www.svdp-sanmateo.org (650) 871-6844	Accepts frost-free refrigerators only; must be plugged in for 24 hours prior to pick up. Call for more information and to arrange for pick-up or drop-off.
The Salvation Army www.satruck.com (800) 958-7825 or (800) 728-7825	Accepts most working appliances. Built-in appliances and those requiring repairs are not accepted. Call for more information and to arrange for pick-up or drop-off.
Uhuru Furniture and Collectables 3742 Grand Ave., Oakland, 94610 www.apedf.org 510-763-3342	Accepts most working appliance less than 8 years old. Built-in appliances and those requiring repairs are not accepted. Call for more information and to arrange for pick-up or drop-off.
JACO Environmental www.jacoinc.net 1-800-741-0172	Will pick-up appliances (TV's, refrigerators, computers, water heaters, trash compactors, air conditioners) for a small charge. Appliances are scrapped, typically for their metal. Call for more information.
ReStore (East Bay Habitat for Humanity) 9235 San Leandro St., Oakland, 94603 www.habitateb.org/restore (510) 777-1447	Accepts donated appliances to use in Habitat East Bay developments, or re-sells them to the public at discounted prices. All sales go into supporting Habitat East Bay's low-income building program. Donated items must be intact and in good, working condition. Call or visit the website for more information.
Excess Access www.excessaccess.com (415) 242-6041	Online donation center that matches business and household item donations with the wish lists of nonprofits that can provide pick-ups or will accept drop-offs. There is an annual $5 membership fee. Call or visit the website for more information.

ASPHALT ROOFING SHINGLES	
Zanker Road Landfill 675 Los Esteros Road, San Jose, 95134 www.z-best.com (408) 263-2385	Obtain a "Composite Asphalt Roofing" material code or equivalent on your receipt to receive full recycling credit for your separated load.

CARDBOARD	
Paper Rush 2372 Jerrold, San Francisco, 94124 www.paperrush.com (415) 282-2344 or (800) 459-0444	Will pay by the by ton for clean, recyclable cardboard.
Sierra Pacific Recycling 501 Brogato Rd., San Carlos, 94070 www.sierrapacificrecycling.net (650) 364-3333	Will pay by the pound for clean, recyclable cardboard.

Shoreway Environmental Center 333 Shoreway Road, San Carlos, 94070 www.rethinkwaste.org/shoreway-facility (650) 802-8355	Accepts separated cardboard at no charge.
California Waste Solutions 3300 Wood St., Oakland, 94608 http://www.calwaste.com/services/buy.html (510) 836-6200	Will pay for acceptable buy-back materials such as cardboard, newspaper, and white, colored and coated mixed paper. Materials are only accepted in bulk amounts of 100 lbs or more.

DRYWALL (clean)	
Zanker Road Landfill 675 Los Esteros Road, San Jose, 95134 www.z-best.com (408) 263-2385	Obtain a “Sheetrock” material code on your receipt to receive full recycling credit for your separated load.
Greenwaste Recovery 1500 Berger Dr., San Jose, 95112 www.greenwaste.com (408) 283-4800	Obtain a “Drywall” or “Sheetrock” material code on your receipt to receive full recycling credit for your separated load.
PABCO Gypsum 37851 Cherry Street, Newark, 94560 http://pabcogypsum.paccoast.com (510) 792-9555	Will accept clean PABCO scrap wallboard at no charge if contractor has an account with PABCO or a PABCO supplier. Obtain a receipt at security gate with date, tonnage, and signature of attendant.

GREENWASTE	
Shoreway Environmental Center 333 Shoreway Road, San Carlos, 94070 www.rethinkwaste.org/shoreway-facility (650) 802-8355	Obtain a “Greenwaste” material code on your receipt to receive full recycling credit for your separated load.
Zanker Road Landfill 675 Los Esteros Road, San Jose, 95134 www.z-best.com (408) 263-2385	Obtain a “Greenwaste” material code or equivalent on your receipt to receive full recycling credit for your separated load.
Greenwaste Recovery 1500 Berger Dr., San Jose, 95112 www.greenwaste.com (408) 283-4800	Obtain a “Greenwaste” material code or equivalent on your receipt to receive full recycling credit for your separated load.
Guadalupe Landfill 15999 Guadalupe Mines Road, San Jose, 95120 (408) 268-1670	Obtain a “Greenwaste” material code or equivalent on your receipt to receive full recycling credit for your separated load.
Recology San Bruno 101 Tanforan Avenue, San Bruno, 94066 www.sanbrunogarbage.com (650) 583-8536	Accepts materials from the public on Saturdays only. A weight ticket must be requested. Obtain a “Greenwaste” material code or equivalent on your receipt to receive full recycling credit for your separated load.
Woodfirst www.woodfirst.com (541) 892-0323 (cell) (541) 850-0456 (office)	Mills trees for lumber. Seeks to provide low cost solutions for returning milled lumber to the community.
P.A.L. / East Bay Conservation Corps 1021 Third St., Oakland, 94607 (510) 376-9994	Mills trees for lumber. Will partner with tree companies to pick-up or receive large diameter logs for milling at its Oakland facility. Call for more information.
Davey Tree / Richard Hill 131 Industrial Way, Brisbane, 94005 (800) 559-7600	Mills rough lumber out of felled trees on a limited, case-by-case basis. Call for more information.

INERTS: CONCRETE, ASPHALT, DIRT, ROCK and BRICKS	
Brisbane Recycling 5 Beatty Road, Brisbane, 94005 (415) 468-8822	Accepts separated concrete and asphalt.
Ryan Engineering 5 Beatty Road, Brisbane, 94080 (650) 877-8088	Accepts separated dirt.

Specialty Crushing Lot Sea Wall 352 / Pier 94, San Francisco (415) 648-7239	Accepts mixed or separated concrete, concrete with rebar and asphalt.
Harbor Sand and Gravel 775 Seaport Blvd., Redwood City, 94063 (650) 367-7124	Accepts mixed or separated concrete and asphalt.
SRDC 199 Seaport Blvd., Redwood City, 94063 (650) 367-7324	Accepts mixed or separated asphalt, bricks, concrete, dirt, porcelain and rock.
Granite Rock 195 Seaport Blvd., Redwood City, 94063 (650) 482-3840	Accepts mixed or separated concrete and asphalt.
Raisch Company 7010 Automall Parkway, Fremont, 94538 (408) 227-9222	Accepts mixed or separated asphalt, concrete, concrete with steel, bricks and porcelain.
Shoreway Environmental Center 333 Shoreway Road, San Carlos, 94070 www.rethinkwaste.org/shoreway-facility (650) 802-8355	Accepts separated asphalt, concrete, dirt, bricks and porcelain.
Zanker Road Landfill 675 Los Esteros Road, San Jose, 95134 (408) 263-2385	Accepts mixed or separated asphalt, concrete, dirt, bricks and porcelain.
Greenwaste Recovery 1500 Berger Dr., San Jose, 95112 www.greenwaste.com (408) 283-4800	Accepts mixed or separated asphalt, concrete, dirt, rock and porcelain.
Guadalupe Landfill 15999 Guadalupe Mines Road, San Jose, 95120 (408) 268-1670	Accepts separated asphalt, concrete, dirt, bricks, porcelain and rock.
DirtMarket www.dirtmarket.com	A web site for posting listings of excess inert materials.

METAL	
Circosta Metals 1801 Evans Ave., San Francisco, 94124 www.circostametals.com (415) 282-8568	Purchases ferrous and non-ferrous metals. Offers free or discounted debris box drop-off and pick-up for larger quantities.
Sims Metal 699 Seaport Blvd., Redwood City, 94063 (650) 369-4161	Accepts only ferrous metals at Redwood City facility. Will purchase metal at certain quantities. Call for more information.

MIXED DEBRIS RECYCLING FACILITIES

Most projects will generate some amount of mixed debris (e.g., scrap wood, plastic, insulation and brick mixed together). It is important to take these materials to a facility that is set up to process them for recycling.

MIXED CONSTRUCTION & DEMOLITION (C&D) DEBRIS	
Zanker Road Landfill 705 Los Esteros Road, San Jose, 95134 www.z-best.com (408) 263-2385	Accepts and sorts mixed construction and demolition debris. Obtain material code "Mixed Debris," "Debris Box C&D," or "Demolition" on your receipt.
