- Town of Hillsborough Water Drought Ordinance Update
- Please Turn Off Your Irrigation System!

### === INFORMATION ===

#### Town of Hillsborough Water Drought Ordinance Update

On June 8, the Hillsborough Town Council adopted an Urgency Ordinance updating the Town's water rationing guidelines in response to the State of California's water conservation mandates.

- The simplified water rationing approach in the Ordinance is meant to provide residents a clear and easy understanding of their water rationing allotments.
- A postcard from the Town will be mailed in the next few days providing initial information and each household's June water rationing allotments.
- A letter from the Town will follow shortly providing more detailed information about the Urgency Ordinance.

Thank you for your patience and your conservation efforts as Hillsborough works to meet the State's water rationing mandates. For further information and to read the Urgency Ordinance go to <http://www.hillsborough.net/413/Drought-Response>.

#### Please Turn Off Your Irrigation System!

We received some much needed rain yesterday. Please remember to turn off your irrigation system during, and for at least 48 hours after, any rain event. Thank you for your water conservation efforts!
