

## Crystal Springs Pipeline No. 2 Replacement Project Coming To Hillsborough

Beginning 2011, the Crystal Springs Pipeline No. 2 (CSPL2) Replacement Project will begin construction to repair, replace and seismically upgrade this critical water main that provides water to northern San Mateo County cities and San Francisco. The San Francisco Public Utilities Commission (SFPUC) is the owner of this important water pipeline replacement project. CSPL2 was built in the late 1930s and is in need of seismic improvements. To ensure water reliability, especially in the event of an emergency, it is critical for the SFPUC to complete this work quickly.

Hillsborough residents will notice construction crews along El Camino Real beginning in spring 2011. The work in El Camino Real will be located at intermittent sites between the Town of Hillsborough and City of Millbrae. Anticipated completion for the work along El Camino Real will be the end of 2012.

This kind of work will likely inconvenience local traffic and generate noise to those living near our project area. **To stay connected with the project and to receive the latest traffic-related information, the SFPUC encourages you to register your e-mail address.** Click on the e-mail registration button to receive the latest project updates and traffic alerts. **Construction crews would likely conduct this work Monday thru Friday from X a.m. to X p.m.**

For more information contact the SFPUC:  
24-Answering Service: **866-973-1476**
