Hillsborough City School District (HCSD) Presentation

HCSD Superintendent Louann Carlomagno updated the City Council on the district's 2018-19 Goals and Initiatives. As a learning organization, HCSD's goals are focused on students learning at their full potential, professional learning for all staff members and providing safe, welcoming and innovative learning environments. HCSD continues to focus on learning to successfully master the HCSD Essential Outcomes.

In order to best serve the students, HCSD will be hosting community meetings where participants will be able to share their ideas regarding a five-year vision for HCSD. These meetings, which will take place on December 5th and December 10th, will be open to all interested stakeholders. Additional information, including meeting location, will be shared with the community in the coming weeks.

Once a five-year vision has been established, HCSD will begin a Facilities Master Planning

process and will also invite stakeholders to participate in this process. HCSD is excited to continue to create exceptional learning environments for Hillsborough students and welcomes the community to join in on the process!
