US 101 Alemany Project construction timeline moved up

On **April 25, 2020**, Caltrans will begin construction work to replace and seismically retrofit the U.S. 101 bridge deck at San Francisco's Alemany Circle.

This is a priority project for Caltrans to maintain one of the Bay Area's most heavily travelled corridors, connecting the Peninsula to downtown San Francisco. More than 240,000 vehicles travel through this corridor daily.

Caltrans has determined this critical infrastructure work, originally planned for July 2020, can be safely fast-tracked to begin in April and completed while our current travel demand is low. It can also complete the project in a shorter timeframe before California's stay-at-home order is lifted further reducing the impact to local and regional traffic.

Please visit Caltrans' official [US 101 Alemany Project page](#) for more information and to sign up for updates.

Resources for San Mateo County residents

San Mateo County has created a catch-all resource website for residents. The page has information on topics such as childcare, unemployment benefits, volunteering, donations, and more:
