San Mateo County added to State's COVID-19 monitoring list - preparing for potential of additional business shutdowns

On Wednesday, July 29th, the County of San Mateo was added to the State's monitoring list due to an increase in the rate of COVID-19 cases in the County. If the County exceeds the State's case rate threshold for three consecutive days, certain industries and activities will be required to cease operations unless they can be modified to operate outside or by pick-up.

During the next three days, as long as it remains on the list, the County will be involved in active engagement with the State while the case rate is closely monitored. The County's case rate today, based on a 14-day rolling average, is 110.4 positive cases per 100,000 of population. The State's threshold for inclusion on the monitoring list is a case rate of 100. San Mateo County Health continues to partner closely with hospitals about their capacity and surge plans.

The three-day clock began yesterday, which means additional restrictions would take effect at 12:01am on Saturday, August 1st. County officials believe that the local case rate will not decrease by Saturday and urge businesses and the community to prepare now for the additional restrictions.

According to State guidelines, the following industries or activities must shut down, unless they can be modified to operate outside or by pick-up:

- Gyms and fitness centers
- Places of worship and cultural ceremonies, like weddings and funerals
- Offices for non-critical infrastructure sectors
- Personal care services, like nail salons and body waxing
- Hair salons and barbershops
- Shopping malls
