

TOWN OF HILLSBOROUGH

1600 Floribunda Avenue
Hillsborough, CA 94010-6418
Phone 650-375-7400

Planning, Conservation and Water Monitoring

About "smart meters" for water monitoring

- The Town's meters can be upgraded to provide instantaneous on line data, however these systems are still new for water utilities and the Town would have to establish a wireless network between all utility meters at a cost estimated upwards of \$1 million. Hillsborough's topography would also make the installation of such a system challenging.

Available water conservation tools through the Town's website

- On the Town's website there's a free [Water Use Report Program](#) available to any resident who registers by calling Public Works at (650)375-7444. Please have your water bill on hand for reference and initial set up. Here's an example of the report that will be provided :

Water Use Report

Site ID:

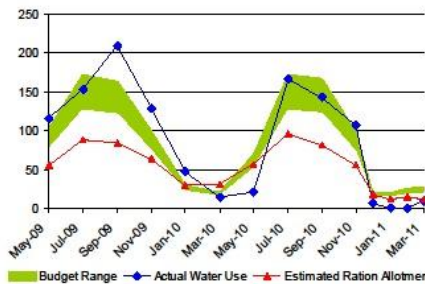

Account Number and Service Address:

Here's A Fact:

71% of homes in Hillsborough reduced their water use last year.

Please Conserve Water!

Site Characteristics

Over Water Ccf	0	30	108
Over Water %	0%	9%	18%
Dollars Lost \$	\$0	\$276	\$1,471

Your Ranking

88

Your rank measures how close actual water use is to budgeted water use over the last 12 months, relative to all other homes in Hillsborough. It is expressed as a percentile, ranging from 0 to 100 (worst to best).

100=top score

People in Hillsborough are saving water and you are saving more than most!

Comments

Go to www.waterfluency.com/hillsborough to update your site characteristics and to sign up to get your water use report sent to you electronically each billing period.

Each water unit (ccf) equals 748 gallons. Your "Budget Range" is plus or minus 15% of your site's water budget. The Ration Allowments shown may vary with severity of drought.

Bring your Water Use Report and questions to Hillsborough's Environmental Fair and BBQ, Saturday, June 4, 10 a.m. - 2 p.m. at Town Hall. Town staff and water conservation professionals will be available to answer your questions.
