

**Please join us for our 2nd Annual  
Block Party for the Upper Chateau Area  
September 30, 2012  
1 pm to 3 pm  
Located on Corlett Way**

We will have a delicious catered BBQ and refreshments to share. We are requesting a \$5./person to contribute for food expenses. If you would like to bring something to the table, that would be great, but not necessary.

Our guests will include members from our local police and fire department who will discuss emergency preparedness and any other concerns or topics you would like to consider.

Limited parking is available on Corlett Way for those of you who need to drive. If possible, please carpool or walk.

In order to become "greener" and to save on paper invitations and postage, I plan to use 'evite' for our 2013 block party. In order to use evite, I need your email address. When completing your HNN Directory form, please indicate your email to use for our HNN area communication. If you prefer to receive a paper invitation, please let me know.

I have enclosed a directory form from HNN. Please take the time to complete it and return it to HNN, or bring it with you to the block party. I know some of you completed this form last year, but it would be helpful to have an updated directory. Kids move out, emergency contacts change.....and as always, your information will remain private.

Please take the time to **RSVP** to our party **before September 20th**. We need to plan on food and refreshments for everyone.

Stephanie Christopherson, HNN Area Lead

Sue Schmidt, HNN Co-Lead

342-0384

There will be take home favors for each household that attends the party. Don't miss out!

Hillsborough Neighborhood Network (HNN) is supported by the Hillsborough Police Department, Central County Fire Department, and the Town of Hillsborough. We are a group of residents working to organize neighborhoods with the end goal of Emergency Preparedness at the individual, neighborhood, and community level. Our objective is to prepare neighborhoods to be self sufficient for 72 hours in case of disaster, and to promote communication within neighborhoods and with the Town.
